

VYDYALINGAM KALIYAPPAN P
vydyalingam.pk0712@gmail.com
PH: +91-8328505409

Objective:

To work in a globally competitive environment on challenging assignment that yield the twin benefit of job satisfaction and a steady-paced professional growth and contribute towards the goal of the organization.

Experience Summary:

- Having **4+ years** of experience in developing .Net Web & Windows Applications.
- Good knowledge in all phases of software development life cycle like Requirement Analysis, Design, Development, Implementation and Maintenance of applications
- Expertise in **C# Programming and Debugging.**
- Designed and implemented **Windows Applications in C#.**
- **Fair experience in WPF and Azure Dev Ops**
- Extensive Knowledge in **.Net Framework 4.8 and Microsoft Visual Studio 2022**
- Good Exposure to **OOPS** Concepts.
- Good Knowledge in **ADO.Net and Entity Framework.**
- Fair experience on **SQL Server, Web API.**
- Experience in database modeling and in the development of complex stored procedures, views, triggers and user defined functions using **SQL**
- Used **TFS** as version control.
- Self-motivated, quick learner, able to work well under tight deadlines and rapidly changing priorities.

Technical Skills

C#, Win forms, WPF, Asp.net, MVC, SQL, Entity Framework, Web API, Azure

Professional Summary:

- | | |
|--|-----------------------|
| • MasterComTechnology & Services Pvt Ltd | Mar 2023 to Till date |
| • ProAspire Infotech Pvt. Ltd | Oct 2019 to Feb 2023 |

Education

M.B.A from PBR VITS College, Kavali, A.P in **2018**

Projects – MasterComTechnology & Services Pvt Ltd

Project #1:

Project Name : AxisPortal

Team Size : 5

Technologies Used : C#,WPF, Asp.net, Web API, Azure, SQL and Entity Framework

Duration : Mar 2023 to Till date

Description :

The main objective of the project is to develop mobile application “Axis portal is a tool used to track delivery for off net circuits within Tata Communications. The portal is used to track various milestones involved in last mile delivery process. Orders are generated in portal by SCM SSC PO Operations team and handed over to SCM ASP Delivery team to complete delivery process to the vendor. The portal tracks delivery of every order running through various status during lifecycle of circuit delivery.

Responsibilities:

- Understanding requirements.
- Involved in Design and Development of User Interface.
- Solving support incidents and bugs.
- Team Meeting.

Projects - ProAspire Infotech Pvt. Ltd

Project #1:

Project Name : INTEGRATED PATIENTS SYSTEM (IPS)

Team Size : 7

Technologies Used : C#,WPF, Asp.net, Web API, Azure, SQL and Entity Framework

Duration : Apr 2022 to Feb 2023

Description :

The main objective of the project is to develop mobile application “IPS Web and Mobile App” that allows to take the admissions from the patients with certain period of time .It tracks and store the data of health and daily basis activities.

Responsibilities:

- Collaborated with agile development team to test, develop and maintain desktop-based software applications.
- Developed, managed, troubleshoot and improved automation programs.
- Investigated application issues, identified causes and initiated troubleshooting methods for immediate resolution.
- Gathered customer feedback and worked to resolve specific concerns.

Project #2:

Project Name : ServApp
Team Size : 7
Technologies Used : C#, Win forms, WPF, Asp.net, Web API, Azure, SQL
Duration : Nov 2020 to Mar 2022
Description :

ServApp Web and Mobile application helps to manage the Service requests from customers within the agreed timelines. The application prioritizes the requests based on the expected delivery time and notifies the users on the approvals.

Responsibilities:

- Worked with software development and testing team members to design and develop robust solutions to meet client requirements for functionality, scalability and performance.
- Participated in team-oriented environments, working cohesively and successfully on multiple projects.
- Mentored newly hired employees, prepared for project tasks, and trained on unfamiliar systems.
- Oversaw each project's technical requirements and completed every milestone on time.
- Tackled development tasks based on system requirements and documented approaches.

Project #3:

Project Name : EZeeHR
Team Size : 5
Technologies Used : C#,WPF, Asp.net, Web API, Azure, SQL and Entity Framework
Duration : Oct 2019 to Oct 2020
Description :

The main objective of the project is to develop a web-based application “EZeeHR” that Manages Employees daily Accomplishment, Attendance, cafeteria Management and Tracing and tracking the Employee Task Details.

Responsibilities:

- Understanding requirements.
- Involved in Design and Development of User Interface.
- Solving support incidents and bugs.
- Team Meeting.
